

LIST OF POSTERS

Title	No.
Quality monitoring in thyroid surgery by Shewhart control chart	1
Antoine Duclos, Sandrine Touzet, Pietro Soardo, Anne-Marie Schott, Cyrille Colin, Jean-Louis Peix, Jean-Christophe Lifante, <u>Marie-Annick Le Pogam</u>	
Crude versus case mix adjusted complication rates in monitoring the quality of thyroid surgery using control chart	2
Antoine Duclos, Nicolas Voirin, <u>Marie-Annick Le Pogam</u> , Sandrine Touzet, Pietro Soardo, Anne-Marie Schott, Cyrille Colin, Jean-Louis Peix, Jean-Christophe Lifante	
Feasibility Study of Casemix Funding in Low Resource Countries: An Iranian Example	3
<u>Shahram Ghaffari</u> , Terri Jackson, Chris Doran, Andrew Wilson, Christopher Aisbett	
Using Case Mix System in Uruguay: Experience and perspectives	4
<u>Alicia Ferreira</u>	
The real effects of special conditions for reimbursement of in - and out-patient's system in Hungary	5
<u>Rita Kövi</u> , Éva Kerekesné Kretzer, Imre Boncz, Julia Nagy, Péter Dublinszki, Maria Kis	
Diagnosis Related Groups: Do you know what they are? – A Student's Perspective	6
<u>João Pereira da Costa</u> , Sandy Severino, Nuno Cruz	
Development of a DRG system based on the German G-DRG system – Experiences of the development of a SwissDRG-Grouper	7
<u>Christine Becker</u> , Constanze Hergeth	
The data collection process established for the German DRG system over the last six years with focus on data quality	8
<u>Mathias Ruser</u>	
A Model to account for the cost of blood in a Hospital	9
<u>Ana Harfouche</u> , Dialina Brilhante	
First Implementation of IR-DRG in Uruguay. Challenges of doing it from scratch	9 A
<u>Elbio Paolillo</u>	
Cancerology and hospital health planning: case mix utility and limits	10
<u>Corinne Hallais</u> , Valérie Josset, Loetizia Froment, Pierre Czernichow	
Review of and customisation of the IR DRG v1 in South Africa by Discovery Health	11
<u>Yi-Ding Jiang</u> , Brian Ruff	
Final assessment of the ambulatory transfer potential for the coronary angiography patients in a teaching hospital in Malaysia.	12
<u>Zafar Ahmed</u> , Marc Berlinguet, Jon Eisenhandler, Syed M. Aljunid	
Assessment about Spanish weights for the International Refined DRGs (IR-DRG)	13
<u>Ana Belén Blanco Giménez</u> , Maria Angeles Gogorcena, R Cózar, M Alfaro, P Ibern, E Unda, D Arribas, O Bernal	

Title	No.
Catalogue for Ambulatory Procedures (CAP)	14
<u>Andrea Weisser</u> , <u>Claudia Scholler</u> , Gottfried Endel	
ATC -> ICD – Evaluating the reliability of prognoses for ICD-10 diagnoses derived from the ATC-Code of prescriptions	15
<u>Andrea Weisser</u> , Gottfried Endel, Michael Gyimesi, Peter Filzmoser	
Pharmacy data and predictive modelling in primary care	16
<u>Paulo Boto</u>	
Resource allocation in Swedish primary health care using the ACG CASE-MIX system	17
<u>Anders Halling</u> , Hakan Lenhoff	
Impact of morbidity on the use of resources in primary care: Retrospective application of ACG® at a Spanish interregional level	18
<u>Daniel Bordonaba</u> , Antonio Sicras, Alexandra Prados, José Estelrich	
Ambulatory drug consumption in the Oporto Oncology Hospital and its economic and financing impact	19
<u>Afonso Pedrosa</u>	
Role of a teaching hospital in providing equitable health care: an evaluation by Adjusted Clinical Group	20
<u>Supasit Pannarunothai</u>	
Accurate coding of clinical data - Code of ethics and practice standards	21
<u>Irene Bohlin</u>	
Key conditions of pro-market health reform. The case of the Czech Republic	22
<u>Marek Pavlik</u>	
A statistical evaluation of two payment methods for the funding purpose of thalassaemia diseases	23
<u>Nilawan Upakdee</u> , Supasit Pannarunothai, Ampaiwan Chuansumrit, Thaworn Sakulpanich	
Business Intelligence in the Health Care System	24
Alexander Ganjeizadeh-Rouhani, <u>Nina Pfeffer</u>	
Integrated Care Funding, the Silo Killer	25
<u>Jacob Hofdijk</u> , Erik Koster	
Assessing resources allocation among the different levels of care in the NHS (2003-2008)	26
Cláudia Borges, Fátima Candoso, <u>Ana Cristina Ferreira</u>	
Coded Adverse Events in Austrian Hospitals from 2001 to 2006	27
<u>Irmgard Schiller-Fruehwirth</u> , Gottfried Endel, Ingrid Wilbacher	
Treatment- and diagnosis-related benchmarking of population groups in Austria. A dynamic information tool.	28
<u>Nina Pfeffer</u> , Alexander Ganjeizadeh-Rouhani	
Regular updating of grouping and reimbursement parameters for case-mix system in Hungary - Experiences and future possibilities	29
<u>Julia Nagy</u> , Zsolt Kiss, Csaba Dózsa, Rita Kövi, Éva Kerekesné Kretzer, Péter Dublinszki	

Title	No.
The reliability and precision of ICD coding for the DPC disease name in Japanese DPC system <u>Hinako Toyama</u>	30
A generic flow-model as a base for constructing work- and monitoring processes in psychiatric care <u>Jan Lindmark</u> , Staffan Rosenius, Annika Stenström, Anette Larsson	31
Analysing cost outliers at Karolinska University Hospital, Sweden Stig Hagstrom, <u>Mats Karlsson</u> , Magnus Sundberg, Leif Sjöman	32
Visualisation of the Flow Model - the patients pathway through healthcare <u>Caroline Hydén</u>	33
The Dutch DBC Systems switch to the Electronic Health Record <u>Jacob Hofdijk</u> , Bauke Versteeg, You Kwa	34
Redesigning the DBC system in the Netherlands, background and context <u>Jaap Stam</u>	35
DRG in the Czech Republic – Advantage or Impediment for Interest Groups? Ivan Maly, <u>Zuzana Darmopilova</u> , Zuzana Zígova	36
Comparisons between outliers and inliers <u>Peter Bolin</u>	37
Redesigning the Dutch DBC-system; towards increased transparency. A novel algorithm for DBC assignment Mathee Swenne - van Ingen	38
DRG-Based Clinical Productivity Reporting In University Hospital Setting <u>Jorma Lauharanta</u> , Esa-Matti Tolppanen	39
